

Manager Investment Consulting (f/m)

About XTP

XTP is the market leader for implementation efficiency in institutional asset management. Our customers are large institutional investors such as pension funds, insurers and reinsurers. With our big-data-driven, bottom-up and forensic approach we create transparency about costs, process performance and risk of their investments across all asset classes. We take a holistic view on the investment process covering asset management, trading, administration, custody, etc. as well as their interdependencies. Our team has a profound understanding of global capital markets. Overall, we have analyzed more than 2.5 trillion EUR in assets with our proprietary software and benchmarking data-bases.

Our customers benefit from a risk-free increase of the net return on their assets. What we do is for a good cause – the savings we generate lead to higher pensions. We reduce information asymmetries and help to increase the fairness, transparency and efficiency of the financial sector.

XTP is a young, innovative, tech-driven and entrepreneurial company. We operate sites in Frankfurt and Munich (Germany), Zurich (Switzerland), Copenhagen (Denmark), and New York (USA).

Your Activities

- Take intellectual leadership in improving our methodologies, software and processes to increase the net performance of the liquid assets of our clients
- Develop quality control principles and KPIs and monitor them
- Lead projects to analyze explicit and implicit trading and investment costs
- Enhance our proprietary benchmarking databases
- Develop storyline, prepare and present results to our client, its asset managers and other servicers
- Renegotiate fees on behalf of our clients
- Lead the improvement and development of new quantitative models and new (software) tools
- Take co-responsibility for investment consulting team (team members, training)

Your Profile

- Strong quantitative skill set, affinity to numbers – you believe that data analytics are cool
- Strong academic track record from leading universities in mathematics, physics or finance
- Practical experience in asset management, trading, custody or related industries is a must
- Interest in solving complex, quantitative issues
- You consider precision as a principle, not as a burden
- Profound negotiation skills
- Self-driven, very well organized and result-oriented team player
- Ability to build-up, manage, and develop teams
- Ability to constantly challenge tools, processes and their results to take them to the next level
- Highly proficient in English and German
