

Senior .Net Developer (f/m)

About XTP

XTP is the market leader for implementation efficiency in institutional asset management. Our customers are large institutional investors such as pension funds, insurers and reinsurers. With our big-data-driven, bottom-up and forensic approach we create transparency about costs, process performance and risk of their investments across all asset classes. We take a holistic view on the investment process covering asset management, trading, administration, custody, etc. as well as their interdependencies. Our team has a profound understanding of global capital markets. Overall, we have analyzed more than 2.5 trillion EUR in assets with our proprietary software and benchmarking data-bases.

Our customers benefit from a risk-free increase of the net return on their assets. What we do is for a good cause – the savings we generate lead to higher pensions. We reduce information asymmetries and help to increase the fairness, transparency and efficiency of the financial sector.

XTP is a young, innovative, tech-driven and entrepreneurial company. We operate sites in Frankfurt and Munich (Germany), Zurich (Switzerland), Copenhagen (Denmark), and New York (USA).
