

Manager Private Equity (f/m/d)

About XTP

XTP is the market leader for implementation efficiency in institutional asset management. Our clients are large institutional investors such as pension funds, insurers and reinsurers. With our big-data-driven, forensic approach we create transparency of costs, processes and investment risks, across all asset classes. We take a holistic view on the investment process covering asset management, trading, administration, custody, etc. Our team has a profound understanding of global capital markets. Overall, we have analysed more than 2.5 trillion EUR in assets with our proprietary software and benchmarking databases. Our clients benefit from a risk-free increase in net return on their assets. What we do is for a good cause – the savings we generate lead to an increase in the size of pension funds. We reduce information asymmetries and help to increase the fairness, transparency and efficiency of the financial sector.

XTP is a young, innovative, tech-driven and entrepreneurial company. We are present in Frankfurt and Munich (Germany), Zurich (Switzerland), New York (USA), London (UK – planned), and Copenhagen (Denmark).

Your Activities

- Take intellectual leadership in improving our methodologies and processes to increase the net performance of the global private equity portfolios of our clients
- Develop a new private equity cost-efficiency-score and best practice standards for the future of private equity investments, enhance our proprietary cost and performance databases
- Lead global due diligence projects to create cost transparency on private equity investments and to identify cost improvement potential
- Lead and conduct forensic analyses of accounting data, financial statements and reports
- Prepare customer presentations, present results and renegotiate fees
- Coordinate efforts to increase automation and to introduce advanced analytics and data extraction tools
- Take responsibility for our private equity core team (team members, training)

Your Profile

- You are a PE expert – when you hear “waterfall” you do not think about vacation
- Strong quantitative skill set combined with a focus on private equity
- Strong academic track record from leading universities in business or finance
- Practical experience in private equity, asset management or consulting is a must
- Intrinsic motivation to tackle this complex field of analysis
- Profound negotiation skills
- Self-driven, very well organized and result-oriented team player
- Ability to build-up, manage, and develop our private equity team
- Ability to constantly challenge tools, processes and their results to take them to the next level
- Highly proficient in English and German
