

Senior Web/.Net Developer (f/m/d)

About XTP

XTP is the market leader for implementation efficiency in institutional asset management. Our clients are large institutional investors such as pension funds, insurers and reinsurers. With our big-data-driven, forensic approach we create transparency of costs, processes and investment risks, across all asset classes. We take a holistic view on the investment process covering asset management, trading, administration, custody, etc. Our team has a profound understanding of global capital markets. Overall, we have analysed more than 2.5 trillion EUR in assets with our proprietary software and benchmarking databases. Our customers benefit from a risk-free increase in net return on their assets. What we do is for a good cause – the savings we generate lead to an increase in the size of pension funds. We reduce information asymmetries and help to increase the fairness, transparency and efficiency of the financial sector.

XTP is a young, innovative, tech-driven and entrepreneurial company. We are present in Frankfurt and Munich (Germany), Zurich (Switzerland), New York (USA), London (UK – planned), and Copenhagen (Denmark).
